

Icon Bank of Texas, N.A. announced the opening this week of its new Metro Office in the Uptown area. The new office opened its doors Monday, August 16, 2010 at 777 Post Oak Boulevard, and is headed by longtime Houston banker Walter Beard, Icon's Metro Market President. "At Icon we offer the service and flexibility that are difficult to find in today's banking environment," says Beard. Each office consists of banking professionals who know the area and its unique needs. "We're excited about providing our banking know-how to the businesses and people of the Uptown area," says Beard.

With the creation of the new office, Co-founder/CEO Mark Reiley and Co-founder/ Corporate President John Green have seen their vision for Icon Bank take fuller shape. "Our focus is offering customized banking solutions across the Greater Houston Area. The banking needs of Uptown are going to be different from those in Clear Lake or Katy," explains Reiley. "We look forward to serving the people of the Uptown/Galleria area with our special brand of banking for many years to come," says Green.

The new location will serve as a loan production office until Icon's branch application is approved. This is Icon Bank's fifth location in addition to its offices in Northwest Houston, Katy, Cinco Ranch and Webster.
